

# Set Up Instructions

## WLM-2000W

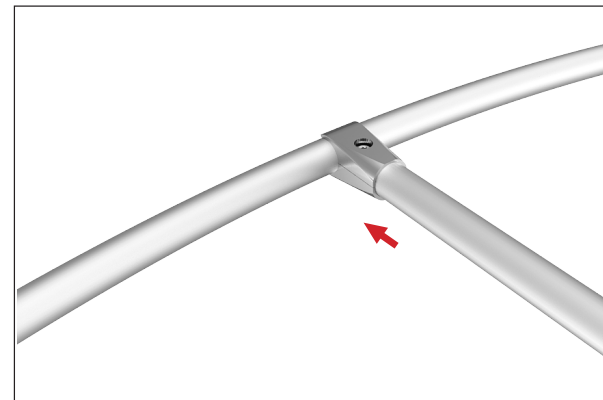

**Step 1:** Assemble straight poles by pressing and pushing together.

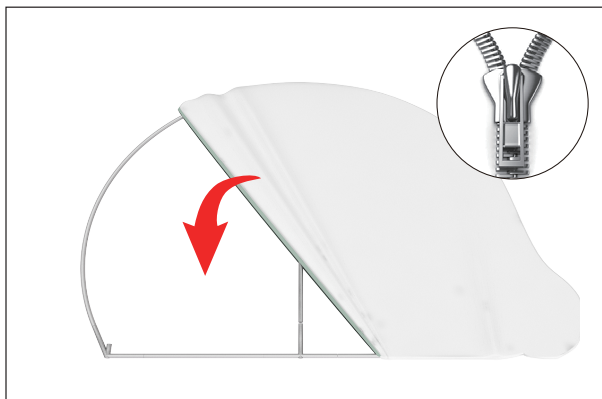

**Step 2:** Connect all corner sections to curved and straight sections of the frame by matching shape symbols on pipes.

**Step 3:**

**Step 4:** Unzip print and lay image face up. Slide print onto frame like a pillow case. Pull and stretch the graphic below the bottom cross bar and zip closed under the cross bar.

**Step 5:** Insert the feet that came with the display into the corners of base to complete assembled frame shown.
